Seafood

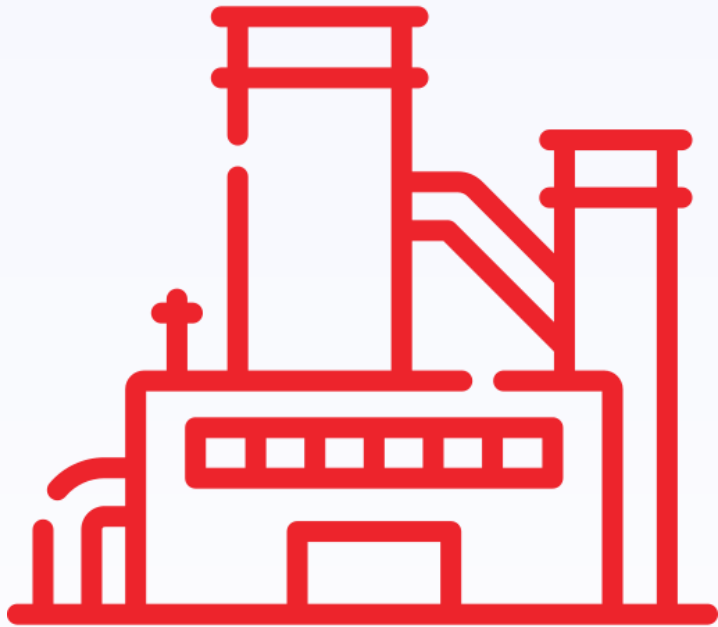

Our Services

We have the highest technology in **cold chains** that guarantee the life and quality of our raw materials.

Our transportation units have adequate indicators that **show in real time the traceability and positioning of your raw materials** for the responsible transfer of our products and thus be able to distribute them to the final destination with **guarantee and security** in the management of delivery time.

- Freezing, preservation, frying of frozen products.
- Distribution to individuals and different businesses and companies worldwide.
- Easy, convenient, efficient and secure purchasing process.

This industrial plant will have:

3 Processing Rooms

- 1 packing
- 1 for glazing with 6 freezing tunnels
- 2 for freezing glazed product

Current

Processing Capacity

We have **3 cold rooms** with a capacity of **15 thousand pounds per day**.

Expansion

To Process

We are initiating the development of an industrial plant for seafood issues with a capacity of:

1,000 tons
per month per process room

3 Cold Rooms
