Price according LME market: <https://www.lme.com/Metals/EV/LME-Molybdenum-Platts#Trading+day+summary>

To convert the price of **\$22.91 USD per pound (lb)** to **metric tons (MT)**, we use the following conversion factor:

- **1 metric ton = 2,204.62 pounds**
- ---
-  **Calculation:**
- Price per metric ton = $22.91 \text{ USD/lb} \times 2,204.62 \text{ lb/MT}$
 $\text{Price per metric ton} = 22.91 \times 2,204.62$
 $\text{Price per metric ton} \approx 22.91 \times 2,204.62 = 50,530.77 \text{ USD}$
 $\text{Price per metric ton} \approx 22.91 \times 2,204.62 = \$ 50,530.77 \text{ USD}$ **LME PRICE BIG DIFFERENCE**
- ---
-  **Result:**
- **One metric ton of molybdenum is approximately \$50,530.77 USD**, based on the current futures price of \$22.91 USD/lb.
