

# Premium Non-GMO Yellow Soybeans: Export Quality Excellence

Welcome to our world of premium Non-GMO Yellow Soybeans Grade 2, meticulously cultivated and processed for human consumption. Our soybeans stand as a testament to quality, meeting and exceeding the highest industry standards. Certified by FDA and AQSIC-GACC, our products adhere to HACCP, GMP, IFS, and ISO 22000 standards, ensuring unparalleled safety and quality. Furthermore, our soybeans are Kosher, Halal, and Non-GMO certified, catering to diverse dietary requirements and discerning quality expectations worldwide.

# Product Specifications: The Mark of Excellence

Protein Content	40% basis (Minimum 34%)
Moisture Content	12-13% Max
Foreign Matter	Basis 1.0%, maximum 2.0%
Oil Content	18.5% basis, 18% minimum
Test Weight	55 lbs/bushel, 70kg/hl average
Split	20% maximum
Total Damage Kernels	2.0% Max
Heat Damage Kernels	0.5% Maximum

# Chemical Safety: Ensuring Purity

## Arsenic Control

Strict limit of 1 ppm max, ensuring minimal heavy metal contamination.

## Phosphide Regulation

Maintained at 0.05 ppm max, guaranteeing safe fumigation practices.

## Cyanide Monitoring

Kept below 5 ppm max, safeguarding against potential toxicity.

## Pesticide Management

Malathion limited to 3 ppm max, ethylene dibromide to 10 ppb max, with zero tolerance for mercuric compounds.

# Microbiological Safety: Ensuring Food Security

Maintaining strict microbiological standards is crucial to upholding our commitment to food safety and security. Here's how we ensure the highest levels of quality:

**Total Aerobic Count:** Kept below 1,000,000 CFU/g, ensuring overall microbial control and product freshness.

**Yeasts and Molds:** Maintained under 10,000 CFU/g, preventing spoilage and preserving product integrity during storage and transport.

**E. coli and Salmonella:** E. coli levels below 100 CFU/g, with complete absence of Salmonella, guaranteeing food safety for consumers.

# Physical Characteristics: Premium Quality Defined

## Appearance

Rounded, yellow-colored soybeans with a distinctive white line, presenting a visually appealing and uniform product.

## Consistency

Solid and firm texture, ensuring durability during processing and cooking, while maintaining optimal mouthfeel.

## Size

Average diameter of 3.6 mm, providing consistency in cooking times and texture across batches.

## Purity

No foreign odor or cockle bur, guaranteeing a clean, pure product free from contaminants or off-flavors.

# Contract Terms: Quantity and Duration

1

## Total Contract Volume

An impressive 2,400,000 Metric tons over a 1-year period, demonstrating our commitment to long-term partnerships and consistent supply.

2

## Monthly Supply

Regular shipments of 200,000 Metric tons per month, ensuring a steady and reliable supply chain for our partners.

3

## Contract Renewal

Renewable terms, offering the flexibility to extend our partnership beyond the initial 5-year period, subject to mutual agreement.

# Pricing and Payment: Transparency and Security

## Competitive Pricing

USD \$495.00 per Metric Ton, offering exceptional value for premium quality soybeans to 200,000 MT x 12 Months include Commissions

## Total Contract Value

An impressive \$1,188,000,000. in 12 months, reflecting the scale and significance of our partnership.

## Secure Payment Method

SBLC MT-760: irrevocable, transferable, divisible, assignable, confirmed, and payable at sight for 100%, ensuring financial security for both parties.

# Shipping and Packaging: Flexibility Meets Efficiency

1

## Minimum Shipment

100,000 Metric Tons per shipment, balancing efficiency with flexibility (every 15 days) to meet diverse logistical needs.

2

## Partial Shipments

Allowed for maximum flexibility, accommodating various storage capacities and demand fluctuations.

3

## Packaging Options

Available in bulk or big bags, catering to different handling preferences and storage facilities.

4

## Comprehensive Documentation

Includes commercial invoice, SGS certificate, certificate of origin, packing list, and quality/quantity certificate, ensuring smooth customs clearance and quality assurance.

# Contract Procedure: A Streamlined Process

1

## Initial Steps

Buyer sends purchase request, seller responds with Corporate Offer. Upon agreement, contract is signed and commercial invoice issued, initiating our partnership.

2

## Payment and Preparation

Payment or bank instrument to be provided within 5 days. Product preparation begins 48 hours after bank confirmation, ensuring prompt fulfillment.

3

## Shipping and Payment Release

Shipping times as per Commercial Invoice. 100% payment released upon verification of shipping documents by buyer's bank within 48 hours, guaranteeing smooth transactions.

# Contract Renewal and Negotiation: Building Long-Term Partnerships

## Automatic Renewal

Contract automatically renews with each monthly commercial invoice, ensuring uninterrupted supply and partnership continuity.

## 30-Day Notice

Buyer must notify seller of intention to terminate or renew 30 days before contract end, allowing for smooth transitions or extensions.

## Quantity Adjustment

Buyer can increase or decrease quantities during the 30-day notice period, offering flexibility to adapt to changing market demands.

## Price Negotiation

Possible after a 3-month trial period, based on volume and compliance history, rewarding loyal partnerships with potential cost benefits.

# Confidentiality and Legal Compliance: Protecting Our Partnership

## Strict Confidentiality

All information in the Corporate Offer is treated as confidential. A non-disclosure agreement remains in effect for 5 years after contract termination, safeguarding sensitive business information.

## Mutual Agreement

Signatures of authorized representatives certify agreement with all terms and conditions, ensuring full understanding and commitment from both parties.

## Complete Agreement

This document supersedes all prior agreements. Any modifications must be made in writing and signed by both parties, maintaining clarity and preventing misunderstandings.

# Your Trusted Partner in Premium Soybeans

## 1 Quality Assurance

Our commitment to premium Non-GMO Yellow Soybeans is backed by rigorous quality control and international certifications.

## 2 Flexible Partnership

We offer adaptable contract terms, shipping options, and negotiation possibilities to meet your unique business needs.

## 3 Global Standards

Adherence to FDA, AQSI-GACC, HACCP, GMP, IFS, and ISO 22000 standards ensures our soybeans meet global quality and safety requirements.

## 4 Long-Term Commitment

With a 5-year renewable contract and consistent monthly supply, we're here to support your long-term growth and success.
